

Why should you buy a Clark Tank?

Clark Tanks keep your water clean, won't rust or corrode, and can be linked for extra storage.

With a local team you'll speak directly with real people, not a call centre, backed by a friendly team with in-depth knowledge of water solutions.

BETTER DESIGN

- ✓ Designed to withstand harsh Australian weather, with the proven history of long-term use in the most demanding rural and urban applications
- ✓ Superior design with tapered walls (above 5,000 litre)
- ✓ One-Piece construction with no vertical seams in round tank range

BETTER BUILD

- ✓ Made from premium, food-grade polyethylene (BPA-free) and compliant with Australian Tank Standards AS2070/AS4020
- ✓ Built with UV-stabilised polyethylene for long-lasting durability
- ✓ Crafted from fully recyclable polyethylene – designed with sustainability in mind
- ✓ Tanks engineered to meet Australian Standard AS4766:2020
- ✓ Fitted with quality WaterMark approved, lead-free brass fittings
- ✓ Certified systems, standards and processes – ISO 9001:2015
- ✓ Protected by our industry-leading warranty

BETTER VALUE

- ✓ Great value for your water storage needs
- ✓ Built to last with minimal upkeep
- ✓ Honest pricing with no hidden delivery charges or fees

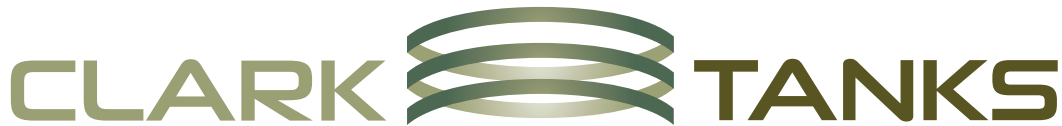

*Conditions apply – see our website for our Terms and Conditions of Sale and Warranty.

Sizes shown are approximate sizes. Capacities listed are approximate maximum. Prices quoted include GST. Specifications are subject to change.

Tanks will be manufactured and delivered by your closest servicing branch.

DIA = diameter
AH = apex height
IH = inlet height
L = Length
H = Height
W = Width

All tanks are available in your choice of colour.
